About me

I am currently completing a degree in computer science engineering. I have enhanced my academic knowledge and leveraged my coding skills through personal projects and professional experiences in web development.

Skills

▶ Front-end web development
HTML, TWIG, CSS, SCSS, JS, Wordpress

▶ Back-end web development
Symfony, PHP, .NET (C#)

▶ Database
SQL

▶ Software development
C, C++, Java

▶ UI-UX Design
Adobe XD

▶ Project management

▶ Customer relations

Languages

French — Mother tongue

English — Fluent (C1)

German — Intermediate

Hobbies

In my spare time I play chess, both on the board and online. I also enjoy playing the piano and cycling.

Education

▶ **Master Degree in computer science engineering**
2021 - Present
Polytech Lyon

Work experience

▶ **Web developer - PLM Services**
2023 - Present | In parallel to studies

Responsible for developing our web application using Symfony.
My primary responsibilities include understanding team requirements and managing the design, development, testing, and deployment of the product.
Technologies: Symfony, PHP, JS, SQL, HTML, TWIG, CSS, Gitlab

▶ **Mathematics Tutor - Polytech Lyon**
2023 - Present | In parallel to studies

In charge of math tutoring sessions for first-year students at my engineering school.

▶ **Web developer - Polyenco**
12/2021 - 02/2022 | In parallel to studies

Development of a website for two pharmaceutical associations.
Technologies: Wordpress (Directories Pro), HTML, CSS, Python, SQL

▶ **Employee - MRG Évènements**
06/2022 - 07/2022

Helped organize various festive events. My responsibilities included preparing, loading, setting up, receiving, and cleaning event equipment.

▶ **Web developer - PLM Services**
07/2021 - 08/2021

Development of the PLM Services website. Remote work.
Technologies: Symfony, PHP, JS, SQL, HTML, TWIG, CSS, Gitlab
